PrimeraOne® brand is a comprehensive and broad portfolio of products with innovative technologies.

**PrimeraOne Means Quality**

Each product is manufactured to the highest quality standards and sourced by suppliers that are basic in the product.

**PrimeraOne Means Value**

PrimeraOne solutions offer cost effective and successful agronomic answers for some of the industry’s most difficult problems.

PrimeraOne brand products are available exclusively through a dedicated distribution network.

Water Soluble Fertilizers

14-0-15 K Cal Mag Plus
This formulation is a 1:1 ratio of N to K, without P, with significant levels of calcium and magnesium. Excellent for root development and disease resistance.
Pack size: 25 lb

15-0-40 Potassium Nitrate Plus
High in potash, excellent late-season fertilizer that will help strengthen greens to increase resistance to frost and disease. Excellent for overcoming potash deficiencies.
Pack size: 25 lb

15-15-30 Hi K
Major ingredient is hydroponic grade potassium nitrate. 1:1:2 N:P:K ratio fertilizer that includes magnesium, sulfur, and a chelated micronutrient package.
Pack size: 25 lb

16-32-16 Hydroseed Plus
High in phosphorus and is an excellent early season fertilizer that will help stimulate root growth. Can be used on lawns, landscapes and hydroseeding.
Pack size: 25 lb

17-17-17 General Purpose Plus
This formulation is for use on turf where equal N-P-K is desired or called for by soil test results. The 1:1:1 N-P-K ratio is urea-free.
Pack size: 25 lb

17-4-28 High Potash Plus
Excellent urea-free fertilizer useful in correcting turfgrass potassium deficiencies while supplying adequate N, P, and supplemental micronutrients.
Pack size: 25 lb

20-10-20 Greenhouse Plus
For a variety of crops and growing conditions. Urea-free, with a high ratio of nitrate to ammonium nitrogen for plant bed and soil-less media.
Pack size: 25 lb

20-20-20 Multi-Purpose Plus
For use on turf and landscape and a wide variety of field and vegetable crops.
Pack size: 25 lb

20-20-20 Multi-Purpose Nutra-Lock™ Enhanced N
Formula for use on turf and landscapes that can be both foliar and soil applied. Contains 73% stabilized nitrogen for long-lasting and consistent green color.
Pack size: 25 lb

21-7-7 High Acid Plus
A superb fertilizer for greens, tees, and fairways. Can be used for both soil and foliar feeding. Its low pH contributes to efficient nutrient uptake from the soil.
Pack size: 25 lb

21-7-7 High Acid Nutra-Lock™ Enhanced N
For use on greens, tees and fairways. Its low pH contributes to efficient nutrient uptake from soil. Recommended for acid loving plants.
Pack size: 25 lb

25-0-25 No Phos Plus
For greens, tees, fairways, roughs, and common areas. The nutrition package in this formula helps turfgrass health without providing additional phosphorus.
Pack size: 25 lb

25-0-25 No Phos Nutra-Lock™ Enhanced N
A formulation offering 78% stabilized nitrogen for turfgrass health without phosphorous. Ideal for areas needing long-lasting consistent green color.
Pack size: 25 lb

25-5-20 Bermudagrass Plus
Produced specially for the nutritional needs of Bermudagrass. Helps Bermuda tolerate heavy traffic, frequent mowing, and promotes thatch decomposition.
Pack size: 25 lb

25-5-20 Bermudagrass Nutra-Lock™ Enhanced N
Specially formulated for Bermudagrass nutritional needs, helps tolerate heavy traffic, frequent mowing and promotes thatch decomposition. 76% stabilized nitrogen.
Pack size: 25 lb

28-8-18 Bentgrass Plus
Produced specially for the nutritional needs of bentgrass. The nutrition package helps bentgrass tolerate heavy traffic and frequent mowing.
Pack size: 25 lb

28-8-18 Bentgrass Nutra-Lock™ Enhanced N
Produced specifically for the nutritional needs of bentgrass. Contains 83% stabilized nitrogen, helps bentgrass endure heavy traffic and frequent mowing.
Pack size: 25 lb
30-10-10 Foliar Plus
High urea formula is excellent for foliar sprays and lawn, landscape, and turf spray programs.
Pack size: 25 lb

30-10-30 Foliar Nutra-Lock™ Enhanced N
Excellent for foliar sprays in lawn, landscape and turf spray programs. High urea content and good solubility make this a very effective foliar fertilizer.
90% stabilized Nitrogen.
Pack size: 25 lb

9-45-15 Turf Starter Plus
Ideal for hydroseeding, overseeding, and new sod installations. Provides extra water soluble phosphorous to help stimulate root development.
Pack size: 25 lb

**Nutritionals**

GreenFee™ Super 15-0-0
An amine compatible formulation of essential iron, sulfur and nitrogen for treatment of off-color or chlorotic turf due to iron deficiency. Contains a proprietary combination of organic acid chelates to stabilize each nutrient.
Pack size: 2.5 gal, 30 gal, 55 gal

**Turf Health Technology**

APEX-10™
A proprietary liquid organic formula made from peat extract that positively impacts soil conditions and plant performance. Stimulates soil microbe population growth and activity while feeding beneficial fungi. Reduces fertilizer needs up to 66%.
Pack size: 2.5 gal

**Fungicides**

Chlorothalonil 720 SFT
Broad spectrum disease control for cool and warm season grasses, trees, shrubs and flowers. Multi-site activity means no disease resistance with repeated use.
Pack size: 2.5 gal

Chlorothalonil DF
Broad spectrum fungicide in convenient granular formulation. Labeled for use on cool and warm season grasses and a variety of ornamentals. Multi-site activity means no resistance issues with repeated use.
Pack size: 4 x 5 lb

Chlorothalonil ETQ
Broad-spectrum contact fungicide with a multi-site mode of action prevents resistance issues. Natural adhesion to leaf blade eliminates need for surfactants. With added Enhanced Turf Quality technology.
Pack size: 2.5 gal

ChlorTeb ETQ
Broad spectrum contact fungicide with preventative and curative action. Inhibits spore germination and growth of fungal mycelium. Excellent combination of chlorothalonil and tebuconazole and the added advantage of Enhanced Turf Quality technology.
Pack size: 2.5 gal

Iprodione 2 SE
Fast-acting, long-lasting disease control for brown patch, dollar spot and other turf diseases. Features contact and systemic control with 14 days or more of residual.
Pack size: 2.5 gal

Iprodione ETQ
Broad spectrum contact fungicide with protective and curative action. Inhibits spore germination and growth of fungal mycelium. With the added advantage of Enhanced Turf Quality technology.
Pack size: 2.5 gal

Propiconazole 14.3
Economical, broad spectrum disease control for cool and warm season grasses, trees, shrubs and flowers. Microemulsion formulation for lower odor.
Pack size: 1 gal; 2.5 gal

Now you can get this same powerful formula as an addition to your spray program, applied to any granular fertilizer product by itself. This enhancement is only available through PrimeraTurf distributors!

For more information on powering your fertilizer program with APEX-10™, please contact your local Primera Distributor.
**Herbicides**

**Primera Millennium Ultra 2**  
Selective post-emergent herbicide with a winning combination of 2, 4-D, chlorpyralid and dicamba for superior control of a wide range of broadleaf weeds for use in commercial turf areas.  
**Pack size:** 2.5 gal

**Primera Triplet SF**  
Post-emergent herbicide combination of 2 phenoxy herbicides and dicamba for selective control of hard-to-kill broadleaf weeds in turfgrass.  
**Pack size:** 2.5 gal

**Prodiamine 65 WDG**  
Excellent pre-emergent herbicide for the control of grass and broadleaf weeds. Can be used in both spring and fall, providing season-long crabgrass control.  
**Pack size:** 6 x 5 lb

**Ice Melters**

**Ice Melter with CMA**  
Fast-acting, long-lasting ice and snow melter. Contains CMA — calcium magnesium acetate — a corrosion inhibitor that protects against wood and concrete damage. Green color indicator for accurate application.  
**Pack size:** 50 lb

**Quad Release®**  
A 4-way blend of tech-grade calcium, magnesium, potassium, and sodium chlorides that is triple-screened to provide uniform spreading with maximum results. Coated with Defrost®, a powerful addition to enhance melting power.  
**Pack size:** 50 lb

**Speedy Melt®**  
Formulated using potassium and sodium chloride as primary melting ingredients. Speedy Melt® granules are coated with a powerful de-icing agent that works on snow and ice faster than untreated ice melters and is treated with organic anti-caking conditioner to provide prolonged storage with minimal clumping.  
**Pack size:** 50 lb

**Insecticides**

**Imidacloprid 2 F**  
Systemic control of soil inhabiting pests in turfgrass and landscape plantings. Low use rates and application flexibility make it a great value.  
**Pack size:** 2.5 gal

**Imidacloprid 75 WSP**  
Foliar and systemic insect control on turfgrass, nursery, greenhouse, commercial and residential landscape ornamentals, as well as fruit and nut trees. Can also be used on ornamental and vegetable plants in greenhouses, nurseries and in interior plantscapes.  
**Pack size:** 4 x (4x 1.6 oz) packets

**Water Management**

**Field Conditioner**  
A calcinated clay soil modifier, PrimeraOne Field Conditioner has the unique ability to absorb its own weight in water and then slowly release the moisture over and over again. Results in less rainouts, less missed practices and less field damage. Reduces compaction and helps improve field drainage.  
**Pack size:** 50 lb

**Field Dry**  
Provides solutions to maintenance problems on baseball infields and athletic turf fields, helps improve field drainage, reduce compaction and manage moisture. Can absorb its own weight in water to dry out puddles and mud. Will not cake or harden and becomes part of the infield soil.  
**Pack size:** 50 lb
